Work Experience

Engineering Manager for Booking

Kiwi.com, Prague
(since August 2022)

Led three teams of 15 engineers, overseeing Kiwi.com's Booking page. Successfully restructured my organization and executed key maintenance projects to improve flexibility and personalization of the Booking page.

Engineering Manager for Booking & Self-service

Kiwi.com, Prague
(March 2020 to July 2022)

Managed 20-25 engineers across four teams responsible for Kiwi.com's Booking page and Self-service portal. Implemented a Google-like employee performance management system for the whole Kiwi.com's SWE organization.

Senior Frontend Developer

Kiwi.com, Prague
(Nov 2019 to Feb 2020)

Supported web frontend devs as a member of Kiwi.com's web platform team. Wrote a lot of documents but no code.

Software Engineer (L4)

Google Germany GmbH, Munich
(2017-2019)

Acted as a team co-lead, focusing on major decisions and project management. Oversaw the transition of a significant service and played a major part in developing a critical Android library for consent screens.

Junior Software Engineer (L3)

Google Germany GmbH, Munich
(2016-2017)

Developed a scalable service (Java) aiding in GDPR compliance for key Google products.

Education

Charles University in Prague

(2013-2016)

Master of Computer Science in Theoretical Informatics at the *Faculty of Mathematics and Physics*

Legacy engineering projects

LinkedPipes Application Generator

(January-July 2016)

My master's thesis. A web platform and framework for automatic generation of simple web applications based on RDF linked data. The backend is powered by Scala with Play Framework, the frontend is using React.js with Redux.

tjfs
(late 2015)

A high-availability distributed file system based on the original Google FS design, developed during my stay in New Orleans. (**Java**)

Skills

Engineering

As a hands-off engineering manager, *I have approximate knowledge of many things.*

Languages

Czech (native), **English** (full work proficiency), **German** (B1)
